

TERRA COTTA (RED-BROWN COLOR) SALTILLO TILE REPAIR

E-Z INSTRUCTIONS:

1. Remove all wax, sealer, debris, tec. from surface to be repaired.
2. Add **LIQUID CEMENT BONDER** to **E-Z PATCH 13 DRY CEMENT MIX**.
3. Add water and mix into the consistency of "mashed potatoes". For tile whose color is between Terra Cotta and Yellow-Tan, add **E-Z PATCH 13** and **E-Z PATCH 14** together and mix wet to compare and match the tile surface when it is wet.
4. **CRACK REPAIR:** Rub **E-Z PATCH** into crack assuring deep penetration into crack (add more water to mix if needed for very small cracks).
5. **CHIP REPAIR:** Fill-in chip and trowel flat.
6. Remove excess immediately with a moist sponge. Rinse Sponge often.
7. Allow repair to dry and then remove any residue with a dry cloth.
8. Allow repair to cure two weeks before oiling or sealing.

To make a Custom Color with any of our cement type repair supplies, use any cement dye.
